EXPERIENCE

UI/UX Designer

MeetMonk Inc

February 2020 - Present

- Designed UI from inception to final product and successfully launched brand new MeetMonk Inc website.
- Designed mock ups for website layout and created final web assets.
- Work closely with the product owner to design pixel perfect visuals.
- Create visual prototype that demonstrated new concepts and features.

Business Analyst

TIAA-CREF, Charlotte, North carolina

April 2019 - Dec 2019

- Created UML diagrams, such as use cases, process flow diagrams and data flow diagrams.
- Create / update projects, user stories and tracking progress and all relevant work in JIRA.
- Worked as a part of the team and communicate effectively with software developers, product managers and other staffs.

UAT Expert

LPL Financial, Fort Mill, South carolina

March 2018 - February 2019

- Developed and executed test plans to ensure the accurate development of more complex system changes from a business and functional perspective.
- Communicated with UAT Test Leads and IT Development to identify and track defects and defect fixes.

QA Analyst

Fusion Informatics, USA

June 2017 - February 2018

- Collaborated with business analyst, user acceptance testers and offshore QA team utilizing MS Visio in order to create detailed test cases.
- Attended and participated in design, defect, and deployment meeting to ensure application functions and guidelines are observed.
